Afternoon workshops will be dedicated to students learning in practice, through round table discussion of their own ideas and in some cases, readings to cement an understanding of what works and does not work.
- **PART TWO** will cover the feature film script. Students will learn the art of dramatic construction, dialogue, character, plot and pacing in their theoretical component. Afternoon workshops will include readings of scenes and treatments for feedback, written exercises and pitching sessions to help students form a definitive sense of their feature screenplay. Students will have their final scenes read or acted aloud in a public forum.
